Welcome to the second edition of the project Newsletter.

What have we been up to over the last month:

Construction work:
Proof of Concept’ – Two concrete slabs one 10 x10m² and 10 x 13m² have been constructed, the concrete was tested for vibration limits.

Infrastructure:
We commenced utility surveys on the 26th March, we have a detailed program of where these works will be taking place across the campus should you require additional information. We will minimise the disruption to external areas such as JJ Thompson road and will ensure that protection around trenches and signage is present at all times.

Visit:
As we commenced the concrete pour we were visited by Prof R Phillips and Prof A Parker from the Physics Department (Photo below)

Community Relations Open Forum:
We held an introduction event on 12th March in the Maxwell Centre and introduced ourselves, some of the messages that we conveyed were:

- Site Program and Occupation:
  Enabling Works & Surveys – March 2018 to December 2018
  Shared Facilities Hub Construction – Mid 2019 to End 2020
  Cavendish III Construction – Early 2019 to End 2021
  Infrastructure – Autumn 2018 to End 2021
• **Logistics**
The Project Director of BYUK – Neil Pixsley explained that a route has been developed to minimise traffic congestion on the campus. Traffic will enter the site coming from the West of Madingley Road **only** onto JJ Thomson Road and leave again via JJ Thomson heading West **only** onto Madingley to leave Cambridge.

The site layout below has been designed to enable us to hold lorries to again minimise disruption on JJ Thompson Road.

• **Corporate Social Responsibility**
Bouygues UK are committed to working with the community, we do this through various initiatives:

- engagement with local Schools and Universities to promote careers in construction
- opportunities for work experience, placements and traineeships
- Site visits from residents and the local community
- Working with a charity – we would like to ask you to nominate a charity with a brief explanation of why? We will review all suggestions and then choose a Charity who we will fundraise for the life of the project, all suggestions can be emailed to: admin.cavendish11@bouygues-uk.com
• Health & Safety
Bouygues UK are committed to Health in the workplace, some key areas where our Focus lies are:
  ○ We are responsible and accountable
  ○ We encourage a positive reporting culture so that we can learn from mistakes
  ○ Respect for people, all injuries and incidents are preventable

Coffee mornings:
Please join us in the West Café at 10am: 19th April, 3rd May, 17th May, 31st May

We are looking forward to working closely with our neighbours throughout the construction of the project and will provide details of potential employment opportunities and some of our proposals for engagement with the local community in future communications. In the meantime, if you have any questions, please email: admin.cavendishIII@bouygues-uk.com

Proof of Concept Concrete works and testing
Your safety is our concern

Bouygues UK takes every precaution to keep you safe throughout the construction process.

At all times, our site will be secure and surrounded by fencing but building sites can be hazardous places:

- We dig deep holes
- We erect scaffolding
- We use large, noisy machinery

Please do not enter the construction site, unless it is part of a pre-arranged visit by our project team.

- Our operatives and staff are trained to work safely
- Please help us to keep you and children safe, and take extra care during the school holidays.

Considerate Constructors Scheme

As with all our projects, this site will be registered with the scheme, and regular visits from the Considerate Constructors monitor will help us to ensure that we continue to improve our performance in showing full respect for:

- Appearance
- Safety
- Community
- Workforce
- Environment

Please let us know if you have any concerns.

Our contact details are below:

If you would like further information regarding the Scheme you can visit their website at www.ccsheme.org.uk

Standard site working hours are:

Monday to Friday: 8am-6pm
Saturday (if needed): 8am-1pm

There should be no noisy works before 8am.
