Welcome to the sixteenth edition of the Project Newsletter.

Around the Site
There are currently around 220 people on site daily.

JJ Thomson Avenue Works – drainage connection between JJ Thomson and Cavendish II
The works to create a new surface water drain which will also connect Cavendish II and Cavendish III drainage systems are on-going.

The 3-way traffic management system (with traffic lights) is in place at the junction of JJ Thomson Avenue and Charles Babbage Road and will be present for 4 to 5 weeks, throughout the Michaelmas Term.

The reason these lights are needed is to create what is known as a ‘heading’ for building drainage. This is a complex piece of engineering work which will involve the installation of large pipes inside a small hand-dug tunnel under the junction.

New Vet School Access Road
Utilities works have now started and we hope to be able to reopen the access road junction with Madingley Road once all approvals have been received in mid-2020. If we are able to open the access road for some users e.g. pedestrians and cyclists earlier than this, we will take the opportunity to do so.
On the site

Concrete frame
We are working across all parts of the Cavendish III and Shared Facilities Hub building’s concrete structures.

Site-wide, we are working on the “superstructure”, i.e. the structure above ground. The highest point is currently at level three of four which can now be seen above our site fences around the entrance to the West Cambridge site along JJ Thomson Avenue.

Shared Facilities Hub
Work continues apace and we are now working on the level one of this community building. This central hub for the campus will provide more eating spaces, a café bar as well as meeting rooms and learning and teaching space.

Recycling Materials
We continue to fill up recycling bins located outside the main entrance to the site (opposite the Vet School). We tend to replenish these on a Friday afternoon with offcuts of wood, pallets etc.

These are available to anyone who wishes to take them.

If you have any grand designs made from recycled materials from the site, please let us know! We’d love to feature your work in the newsletter!
Corporate Social Responsibility

Charity
In October we took part in Breast Cancer Awareness Day by wearing pink. (This was mainly office staff our site staff are required to wear lovely bright orange Personal Protective Equipment.) We raised over £100!

Now we are taking part in Movember, an impressive 17 people are growing moustaches as part of a fundraising drive and on Monday 2 December they along with another 5 members of the team will be losing their ‘tashe in a Big Shave Off. This includes the inimitable Brian from our Mechanical Electrical Plumbing Design Team, who will be shaving off his moustache after having a ‘tashe for 30 years!

Work Experience, Trainees, Apprentices & Graduates
We continue to promote opportunities on the site, we will be working with Anglia Ruskin University to provide opportunities / placements for graduates on site and setting up some visits with their Civil Engineering Students.

If you know of someone interested in construction who would like to be considered for a placement on the scheme, please get in touch.

Residents’ & Neighbours’ Meetings
We hosted three residents at our October meeting.

We hope to see you at one of our next meetings. We are meeting on Wednesday 20 November 2019 at 1800 hrs at the Project Offices, Philippa Fawcett Drive.

The remaining meeting of the year is on 11 December 2019 at the same place and time when we’ll also be having mince pies and some non-alcoholic mulled wine. There will be also other opportunities for you to come and see what we get up to in the future.

Considerate Constructor Scheme
The Project is registered with the CCS (Considerate Constructors Scheme) and in our last audit we scored 44 / 45 on Appearance, Community, Environment, Safety and Workforce.

We work closely with the local Considerate Contractors representative, Nick Milne who is contactable via Cambridge City Council.

If you do have any issues, please do let us know, we will always try our best to come up with a solution to the problem.
West Cambridge Campus
Now that the site is becoming a lot more visible across the area we have started to get an interest from some of our neighbours on the Campus about what’s going on.

If you would like to view the site in person, please get in touch for information about planned tours and site visits.

Programme Reminder

Site Programme and Occupation:
Shared Facilities Hub Construction – Mid 2019 to Early 2021
Cavendish III Construction – Late 2018 to Mid 2022
Infrastructure – Late 2018 to Early 2022

Coming Up

On 13 December it is Christmas Jumper Day, we’ll also be holding our staff Christmas party at the Hauser Forum in the afternoon.

In the meantime, if you have any questions, please email: admin.cavendishlll@bouygues-uk.com
Your safety is our concern

Bouygues UK takes every precaution to keep you safe throughout the construction process.

At all times, our site will be secure and surrounded by fencing but building sites can be hazardous places:

- We dig deep holes
- We erect scaffolding
- We use large, noisy machinery

**Please do not enter the construction site, unless it is part of a pre-arranged visit by our project team.**

- Our operatives and staff are trained to work safely
- Please help us to keep you and children safe, and take extra care during the school holidays.

Considerate Constructors Scheme

As with all our projects, this site will be registered with the scheme, and regular visits from the Considerate Constructors monitor will help us to ensure that we continue to improve our performance in showing full respect for:

- Appearance
- Safety
- Community
- Workforce
- Environment

Please let us know if you have any concerns.

Our contact details are below:

If you would like further information regarding the Scheme you can visit their website at www.ccscheme.org.uk

**Standard site working hours are:**

Monday to Friday: 8am-6pm
Saturday (if needed): 8am-1pm

There should be no noisy works before 8am.

**Want to speak to us?**

We understand you will want to know what is happening in your area. Our team is available to answer any queries or concerns you may have and are only too pleased to hear from you. If you have any community projects that you think Bouygues UK could get involved with, please contact the site team below.
