YAY! ITS WORKING! THE PROTONS ARE PASSING THROUGH AS PLANNED.

YAY! ITS WORKING! THE PROTONS ARE PASSING THROUGH AS PLANNED.

SALLY, WE HAVE A PROBLEM! SINCE YOU STRETCHED FOR TOO LONG, YOU HAVEN'T BEEN ABLE TO ABSORB ENOUGH PHOTONS EITHER. YOU ARE GOING TO RUN OUT OF POWER SOON AND STOP!

ENGAGE SHRINK MODE!

OH NO! I NEED TO SHRINK SO I CAN RECHARGE ON SOLAR ENERGY!

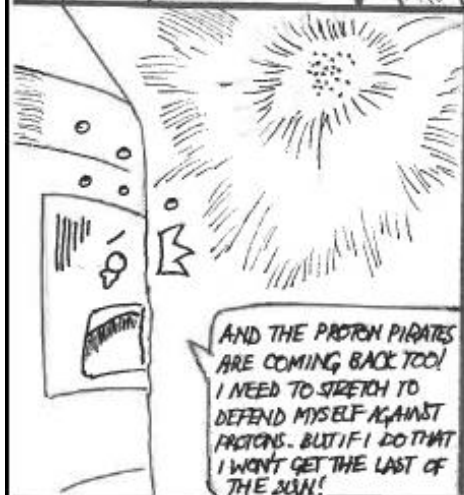

HUH?! WHY AM I GETTING LESS SUNLIGHT? WHY IS IT GETTING DARKER??

MARS

SUN

OH NO! MARS IS BEGINNING TO BLOCK THE SUN!

AND THE PROTON PIRATES ARE COMING BACK TOO! I NEED TO STRETCH TO DEFEND MYSELF AGAINST PROTONS. BUT IF I DO THAT I WON'T GET THE LAST OF THE SUN!

I HAVE NO CHOICE... I MUST ACTIVATE MY PLASMONIC NANOSTRUCTURES TO ENHANCE THE ENERGY I GET FROM THE SUNLIGHT AND SPEED UP THE RECHARGING. THEN I MIGHT BE ABLE TO START FLYING AGAIN BEFORE THE PROTONS ARRIVE...

ACTIVATE PLASMONIC NANOSTRUCTURE!!!

MAXIMISE SUNLIGHT ABSORPTION!
